

Flood Service

Wee Clean, Inc. is IICRC certified in water damage restoration.

Here is our 15-Step process:

1. Pre-Inspection
2. Verify utilities are disconnected
3. Determine the water damage perimeter with sophisticated moisture readers
4. Extract water with high-tech equipment
5. Pull back the carpet
6. Replace pad if necessary
7. Determine if the water is clear, gray or black
8. If clear or gray we can usually save carpet. If flood damage is black water suggest carpet replacement
9. Spray deodorizer for mold
10. Check in crawl space for large amounts of water or mold
11. Bring in commercial flood blowers and dehumidifiers
12. Create a balanced drying system
13. Re-install carpet
14. Clean carpet to remove any water stains
15. Final Inspection
